

**Florida Contacts for Television, Computer and Electronics  
Demanufacturing and Recycling**  
(Page 1 of 4)

Solely as a service to the public and Florida businesses, the Florida Department of Environmental Protection (DEP) maintains the following list of companies that demanufacture and recycle televisions, computers and other electronic equipment. The information was voluntarily supplied by the services and is not necessarily a complete list of available services and a company's absence from the list does not imply prejudice or impropriety. The DEP does not endorse specific equipment or companies. The DEP, by providing this list, does not imply that the companies are in compliance with applicable laws. Users of this list are responsible for ensuring that products, equipment, or services comply with the requirements of local, state, and federal law. The DEP cautions users to personally evaluate the services and compliance status of any company they use. This list is updated periodically and subject to change without notice. The DEP welcomes information from companies who wish to have their products or services listed.
